

This assignment is due on Tuesday, October 24, 2023.

Rewrite the questions you missed on the Midterm Exam by providing the following for each missed question:

1. Explanation of what you did wrong or missed or misunderstood on the question.
2. Full solution of the problem.

If your solution is complete and correct, you can receive up to half of the points back on that problem. So, for example, if you scored 60 on the midterm, and you worked all of the problems completely and correctly on this rewrite, you could score 20 more points, for an adjusted midterm grade of 80.
